

Standard availability $\varnothing 0.2\text{mm}$ \rightarrow $\varnothing 25\text{mm}$

STRAUSS & CO. offers a wide range of diamond and CBN grinding pins.

This pins are designed to offer the end user safe, superior quality and cost effective pins. A wide selection provides a choice of the most suitable grinding for any given application in terms of head size, shank size, length and grit size.

For vibration-free work one can choose the closest head diameter to hole diameter, and shortest length.

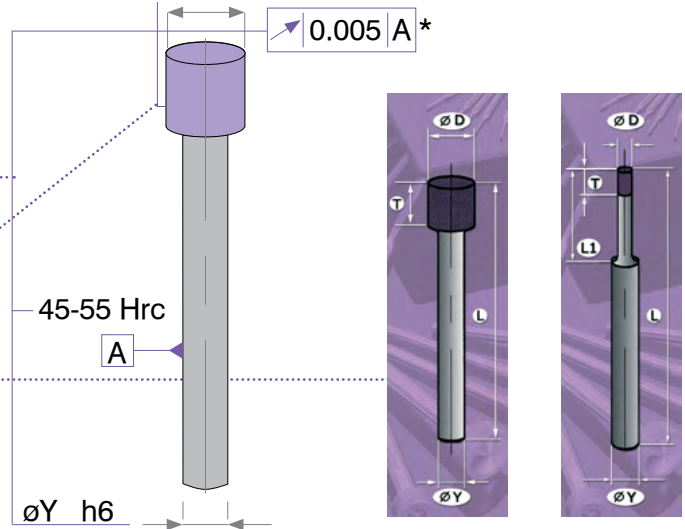

All standard shanks are hardened to 42-55 Hrc and are center-less ground, to ensure a rigid, accurate, concentric and parallel pin blank.

STRAUSS & CO.'s production is subject to stringent in-process and final control, resulting in an internationally recognized reputation for high quality and extremely long life grinding pins.

STRAUSS & CO.'s Diamond & CBN pins are widely used on jig and internal grinding machines, cylindrical grinding machines and hand tools. These pins are used for internal grinding operations of dies, special punches, cutting tools, as well as numerous parts of stainless steel, exotic super alloys, etc.

- Guaranteed tolerances – no “run-out” on the pins shank/head. As a result – precise internal grinding is achieved and there is no fear of damaging the hole.
- Top quality blanks.
- Perfect for Jig grinding applications due to shank tolerances.
- Strauss well known Top quality plating.
- Vast selection of sizes and grits enables the end-user to work in the most economical methods.
- Cost effective.
